

# 2004 GSI Drying Systems Portable Dryer Price List

Effective: JUNE 28, 2004

a division of  
THE GSI GROUP

# INTRODUCING THE L SERIES OF GSI DRYERS

---

- ◆ Network Dryer Controls Standard
- ◆ HI-LO Fire Burner for Even Plenum Temperatures
- ◆ GSI Moisture Manager Standard Equipment
- ◆ Pressure Dry/Vacuum Cool, Full Heat Continuous Flow or Pressure Dry/Pressure Cool Drying Modes for flexibility in the drying process
- ◆ Heavy Duty 4" meter rolls with variable speed DC Drive
- ◆ 29" Fold-up Wet Bin Standard on these dryers
- ◆ Extremely Quiet Low Speed Centrifugal Fan
- ◆ See pages 6 & 7 for specifications and pricing

## Portable Dryer Price List

## 100 Series Pricing

All screens, augers, bearings and sheet metal parts are the same as the 1100 Series dryers.  
Only the electronic controls are different.

100 Series System	Externally adjustable vaporizers
Full heat continuous flow or auto batch	Low speed vane axial fans with Blue Burn System on LP models
Dry and cool auto batch	Internal and external meter roll cleanout
Full safety control system	Heavy duty meter rolls and drive
See through control panel door	Solid dividers, every two feet
Load and unload auxiliary starters	Galvanized fan housing, control cabinet and auger housing
Waterproof controls	<b>Perforated wet bin standard on all models</b>
Solid state ignition	

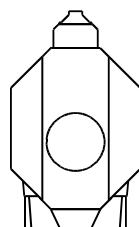

Model Number	Electrical Power		Fuel	List Price	Approx Dryer Wt	Wet Bushels Full Heat		Wet Bushels Dry & Cool	
	Phase	Voltage				10 pt.*	5 pt.*	10 pt.*	5 pt.*
108	1 or 3	ALL	ALL	<b>\$31,970.00</b>	4,300 lbs.	190	310	120	155

\* Measured in wet bushels per hour (BPH)

Add \$3500 list for GSI Moisture Manager Control when ordered with Dryer.

For CGA approval on above models add \$1100 list

For small grain perforations (0.050") add 2% to list price of dryer

100 Series

# 1100 Series Pricing

# Portable Dryer Price List

## Network Control System

## Moisture Manager Standard on Dryer

Fan/Heater bypass

Every shutdown monitored and saved in the error shutdown history

Out of Grain--Unload Cleanout

Full heat continuous flow or auto batch

Remote capable control center

See through control panel door

Load and unload auxiliary starters

Low speed vane axial fans with Blue Burn System

Solid state ignition

Externally adjustable vaporizers

Internal and external meter roll cleanout

Heavy duty meter rolls and drive

Solid dividers, every two feet

## Perforated wet bin standard

Waterproof controls

### Network Control System

### Moisture Manager Standard on dryer

All temps set at main control box

Watchdog remote monitoring system capable

Fan/Heater bypass

Every shutdown monitored and saved in the error shutdown history

Continuous flow or staged batch

Out of Grain--Unload Cleanout

Easily remoteable control center

Load and unload auxiliary starters

Galvanized fan housing, control cabinet and auger housing

Low speed vane axial fans, LP models have the exclusive "Blue Burn System"

Solid state ignition and flame sensing

Externally adjustable vaporizers

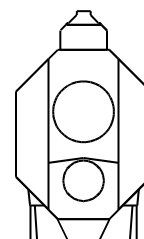

Internal and external meter roll cleanout

Heavy duty meter rolls and drive

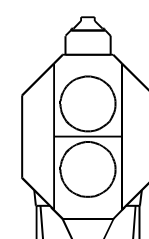

Solid dividers, every two feet

**Perforated wet bin standard**

Waterproof controls

## PGC PNEUMATIC GRAIN CLEANER

### Benefits of the PGC include:

Removal of light foreign material occurs at the most optimum moment, when grain is in suspension.

Removing light materials improves air flow during storage aeration.

Removing bees' wings (red dog) reduces the potential of plugged aeration floors, elevator leg boots, heads, and distributors.

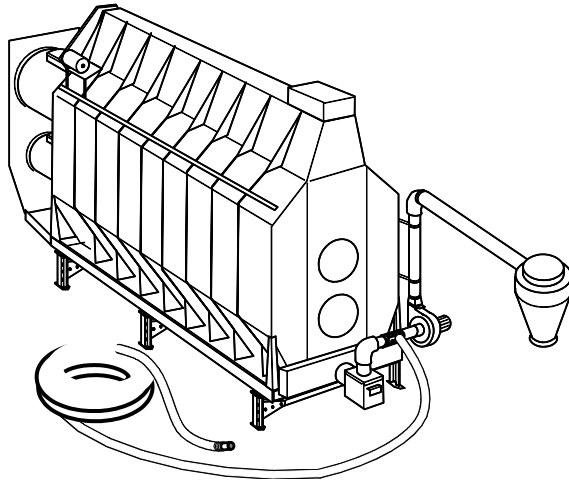

Removing some foreign material increases grain quality and reduces possible dockage at the elevator.

Low cost, low maintenance, high return.

GSI PGC can also be adapted to other areas of the grain system to increase the cleaning potential.

Less bees' wings (red dog) and foreign matter around the drying facility results in a cleaner, more desirable working atmosphere.

Part Number	Description	List Price
PGC-01	Grain Cleaner Kit	\$1,861.00
002-1338-9	1.5 HP 1 PHASE 115/230 TEFC 56	\$430.00
002-1339-7	1.5 HP 3 PHASE 230/460 TEFC 56	\$430.00

### HP INCREASES OF AUXILIARY LOAD & UNLOAD SYSTEMS

All single phase dryers include 7.5HP auxiliaries standard. Three phase 12' and shorter dryers have 7.5HP auxiliaries standard, three phase 14' to 18' dryers have 10HP standard, and three phase 20' and larger dryers have 15HP standard.

Description	List Price
Changing from 7.5HP to 10HP - load or unload	\$350.00
Changing from 7.5HP to 15HP - load or unload	\$350.00
Changing from 10HP to 15HP - load or unload	\$350.00

Note: Upgrades are not available for all models. Consult factory if required.

## Portable Dryer Price List

### Transport Kit Policy

If the transport kit will be kept longer than the stated terms of the invoice, payment needs to be received. Upon return of the kit, credit will be issued. If payment is not made, a 1% per month finance charge will be the responsibility of the dealer. When returning the kit please include the invoice number the kit was billed on. This will help establish the credit more quickly.

### Dryer Trailers

Allowable length 45' 0"  
Any combinations to = 45' 0"

### Dryer Hauling Lengths

Model Length	Length
8	14' 9"
10	16' 9"
12	18' 9"
14	20' 9"
16	22' 9"
18	24' 9"
20	26' 9"
22	28' 9"
26	32' 9"
34	40' 9"
38	44' 9"

Light kits are available for \$200.00 credit upon return only. We would like to encourage our dealers selling several dryers per year to purchase a set of kits.

### Cancellations or Changes

\$100.00 is charged to an order for any change made during production and \$1000.00 charge is issued for a dryer order cancellation during production.

### Fuel Surcharges

Due to the rising cost of diesel fuel, beginning Monday April 19<sup>th</sup>, 2004, we are implementing a fuel surcharge that will be added to our base delivery freight charges. The fuel surcharge will be based on the U.S. Department of Energy's weekly national average for diesel fuel. This information can be viewed on their web site: <http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp>. The average price per gallon of fuel this week was \$1.679/gallon, which equates to a 6% surcharge. These prices are adjusted and posted each Monday and we will adjust our rate accordingly. Following is a chart of surcharge percentages related to diesel fuel pricing:

Price per Gallon Fuel			Surcharge
1.10	to	1.199	1%
1.20	to	1.299	2%
1.30	to	1.399	3%
1.40	to	1.499	4%
1.50	to	1.599	5%
1.60	to	1.699	6%
1.70	to	1.799	7%
1.80	to	1.899	8%
1.90	to	1.999	9%

### Dryer Freight Charges

The following freight rates apply to GSI dryer shipments from Newton, Illinois:

**Pulled Dryers** - For 18' or shorter dryer baskets, the delivery of a single pulled dryer will be \$1.55 per mile. For pulled dryers longer than 18' basket, the delivery charge will be \$2.10 per mile. (The recommended transport kit will be required on all pulled dryers)

**Hauled Dryers** - The delivery of any hauled dryer or dryers to a single dealership will be \$2.10 per mile per trailer load. (Note: Two dryers with a total basket length of 36' or less can be hauled on the GSI dryer trailer. Three dryers with a total basket length of 30' or less can be hauled on the GSI dryer trailer)

**Hauled Dryers, Split Loads Between Different Dealers 150 Mile Radius of Each** - The delivery of a dryer(s) combined with another dryer(s) from a different dealer will be \$1.25 per mile per dealership. (Note: Two dryers with a total basket length of 36' or less can be hauled on the GSI dryer trailer. Three dryers with a total basket length of 30' or less can be hauled on the GSI dryer trailer)
